Hello Skippers,

Last week on the 15th, the ODOM regatta was held. I want to thank Kent Broadhead for taking over as race director while I was out of town. We had 12 skippers compete and 12 races were completed. the results are attached and also shown below.

Talking with a few skippers yesterday, I understand it was quite a wild day at the start. Winds were blowing about 7 mph, but gusting to 12 from the west. The first 4 races were run heading west with gusty winds. Then the winds started to drop off and swing such that the windward leg became to the east. Apparently the wind continued to drop and for the last couple races they became variable and almost no velocity.

See you at the pond,

Don
