

Hello Skippers,

Yesterday we had our first ODOM regatta of the 2020 season. Five folks showed up with their ODOMs. We also welcomed a new member, Dave, who brought his T-37 to try out at Harper Lake. I apologize to Dave for not getting the spelling of his last name ?.

The winds were variable yesterday but we had some nice breezes now and then, about 3-5mph, until about noon. We had some northeast wind at first and then it switched to west and northwest after 11:00 or so. We ended up calling it a day just after noon when there was no longer any wind and it was just getting hotter. We never did keep any official scoring.

I think in the 13 years I have been with HLMYC, this was the hottest day of sailing. When I got to the lake, it was already 90 and when I left, it was 96. Fortunately we had some cloud cover for most of the time and that kept it from feeling even warmer.

Next weekend is the DF65 regatta. I will not be at the lake next weekend, but Denny will be the race director for the DF65 regattas.

Have fun sailing the DF65s and I'll see you again for the Victoria regatta in August.

Don
