

Skippers:

We held the October Victoria Regatta last Saturday. Seven skippers showed up on this beautiful day. The winds were 3 to 5 miles per hour as we set up the course on the traditional south shore. By the time we got started right at 10:30 the wind was more like 2 to 3 MPH, but it was straight out of the east. We had the regular course and there were no fisherman so we used the entire shore all the way to the point. It was challenging to see the windward marks. After the first few races the wind became quite spotty and we had to postpone at times between races. All of the races were single lap and we used the single NE buoy several times. Twice we started to the west, but both times it shifted east during the races. It was a fun day to be outside with temperatures right around 65 at the start and probably 75 by the time we called it quits. Congrats to everyone for sailing clean as there were very few penalty turns required. Hopefully Don can post the season standings when he gets the chance.

Fairwinds,  
Denny
