

September 26, 2020

Hello Skippers,

This is a report on the September DF65 regatta based on notes from Chuck Drake since I was not able to be present. Six skippers came out for the regatta including new member David Myer. Welcome David! Fourteen races were completed before the wind became too strong to continue, blowing perhaps over 10mph. The weather was great with temps in the 70s. The results are shown below and also attached to this email.

The first 5 races were single lap races with winds about 2-4mph. Then the wind picked up a bit to about 5-6mph, gusting around 8-10. The last 9 races were varied courses, using gates and sometimes a single mark to windward.

It sounds like it was a pretty nice day for sailing until it got to be a little too much for the DF65s. I wish we had this wind last weekend for the ODOM regatta!

See you at the pond,

Don
