

Skippers

We held the October DF65 regatta today. It was a very nice day at the lake. Unfortunately there was not a lot of wind, it was very glassy when we arrived and didn't pick up much by the time we started racing. We setup on the south shore because predictions were for the south wind to swing around to east later in the day. That didn't happen and as a result we had only reaching courses for the entire day. We did get in ten races and the wind was very shifty when it existed. You can see by the results that places 2,3 & 4. were separated by a single point. The tie was broken by Rodney's bullet in race 7. Some very close sailing by these skippers.

Have a great week!

Denny
