

Skippers

We held our first DF65 regatta of the year today! Seven skippers attended and we had a very nice day of racing. We had a little bit of sunshine with temperatures in the mid fifties. We had all types of wind from drifting to ten to twelve MPH. It blew from the northeast, south and west. We were setup on the south shore and so we sailed to the west and the east. We got in 13 races and for the first event I would say everyone had a nice time! The results are below.

Smooth Sailing
Denny
