Skippers

We held the DF65 August Regatta today. First big thanks to Rodney, Stew and Barry for all the help with the buoys.

At 9:30 the lake was smooth as glass, no wind whatsoever. As the 10:30 start time approached a slight and I mean slight breeze came up out of the NE. We had pulled the wing mark out with the boat until we had no more line. That meant that we had a pretty decent upwind leg although the breeze was minimal. We ran several races using that outer mark and then to the two leeward marks and a middle finish. We then ran several races using that outboard mark and then rounding the front start mark and going back to the outer mark and finishing downwind. Several of these races had decent wind with pretty good lulls in the middle. Then the wind shifted to the west and came up some. We moved one of our west marks and threw it off the west shore. Thanks Barry. We ran several races up to that far mark circling back to a start mark and going out again finishing in the middle. The last three races heading west had very good wind. The last race wind was 10 to 12, really fun! I hope everyone who came out had a fun Day. Thanks to Don for updating the season score sheet.

Hope to see you all out again soon,
Denny
