

November 5, 2022

Hello Skippers,

Today was going to be the final Victoria regatta of the 2022 season. The wind forecast at the lake was to be less than 15mph until about 1:00. I arrived around 9:30 and saw significant wind already on the lake. I measured up to 15.3mph coming from the west. It did not appear that it was going to let up and the forecast was indeed for it to continue to pick up. So we had to cancel this final regatta.

Stew and I took a lap around the lake and the wind did continue to pick up. On the east end of the lake, there were significant whitecaps. I took another wind speed measurement there and it was blowing over 25mph and a gust hit 33+ mph.

We completed 7 regattas over the season and based on our rules we allow 3 throwout regattas. The final results are attached to this email. As seen below, competition this year was strong. Only 0.5 points/month separated the top 5 finishers.

The top 5 places for the Victoria class this season are as follows:

5. Denny Hanson	2.84 pts (Avg/month)
4. Rich Bryan	2.75 pts
3. Stew Williams	2.56 pts
2. Barry Hight	2.45 pts
1. Don Verhaeghe	2.34 pts

Congratulations to all the Victoria skippers who competed this season!

See you at the pond!

Don
