

The season opening Victoria Regatta was held today with nine sailors competing. The winds were quite variable and ranged from two to three all the way to fifteen or so. It blew mainly from the east and shifted some to the northeast with intermittent puffs all the way to the west. We stopped sailing a little after 12:00 as the puffs were getting out of the range for Vic's.

There was some great tight sailing and a good time was had by all!

Smooth sailing to everyone,

Denny
